## MARTIN STRAP DUPLICATORS

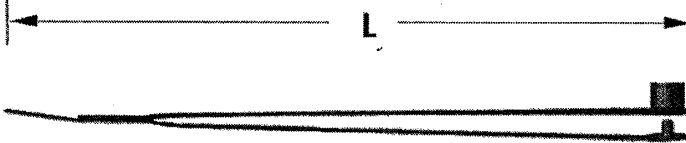

Martin MM250, Bushing Type

MM-250

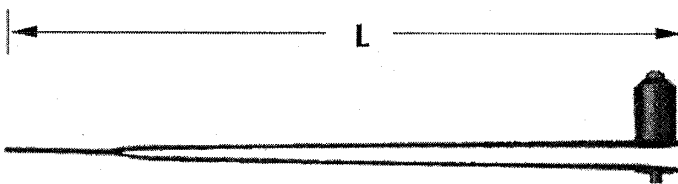

Strap duplicators are used for drilling duplicate holes from an overlapping sheet. Tapered end is a convenient tool for prying sheets apart.

Martin MM255, Bushing Type (Inverted)

Same as MM250 except that the pilot is inverted to allow duplication where it is not possible to insert the tool between the sheets.

Martin mm260, Punch Type

Has a spring-loaded hardened and ground pin. Same as MM250 except it is used to mark sheets to drill from a blind hole.

TOOL NUMBER	TOOL NUMBER	TOOL NUMBER	PILOT DRILL SIZE	L

## MM447 DRILL STOPS

Used to control drilling depth and protect surfaces from being damaged due to contact with the drill in motion.

### FEATURES:

- Regulates Hole Depth
- Cushions break through
- Reduces surface marring

Minimizes drill breakage  
Available in many sizes  
Heat treated to prevent galling during use.
